

# Employee Scheduling

Schedule the Right Associate for the Right Task at the Right Time – the First Time

With rising minimum wages, increased regulations, and a tight labor market, effective scheduling has become more crucial than ever. While an accurate forecast is key, the scheduling system you choose can make the difference between average customer service and exceptional performance.

Logile's Employee Scheduling solution optimizes your most valuable resource – your people – by revolutionizing the way you schedule. Assign the right associate to the right task, at the right time and place. Maximize associate efficiency with comprehensive, cross-departmental scheduling that streamlines operations, reduces labor costs, minimizes idle time, controls overtime, and enhances customer service – ultimately driving sales.

## Key Capabilities:

- **Pre-Scheduled Alerts:** Receive alerts about potential issues with labor, tasks, availability and configuration, allowing you to resolve them before they affect scheduling quality.
- **Special Assignments:** Manage non-task-related scheduling needs, ensuring the right number of qualified associates are available when needed throughout the workday.

- **Open Shift Auto-Posting:** Enable associates to bid on available shifts as soon as schedules are posted, ensuring labor needs and service standards are consistently met.

**Achieve up to 95% scheduling efficiency**
